

## WATCH YOUR HORSE THIS HOT WEATHER

Humane Society Issues a Few Instructions That Are Guaranteed to Save Trouble if Followed.

A campaign to lessen the suffering of horses during the summer months has been started by the South Bend Humane society and members are constantly on the look-out to see that none of the laws are violated.

Because of the extreme hot weather of July, several horse owners have been compelled to take their teams to the barns, while there has hardly been a single day when their teams could work up to the average.

It is thought by the Humane society that the step toward protecting the horses will add interest in the work horse parade to be given on Labor day.

By following these rules the horse will be in a better condition to take part in the event on that day. The suggestions offered by the Humane society are as follows:

Load lightly and drive slowly. Stop in the shade if possible. Water your horse as often as possible. So long as a horse is working, water in moderate quantities will not hurt him. But let him drink only a few swallows if he is going to stand still.

When he comes in after work, sponge off the harness marks and sweat, his eyes, his nose and mouth, and the dock. Wash his feet but not his legs.

If the thermometer is 75 degrees or higher, wipe him all over with a wet sponge. Use vinegar water if possible. Do not turn the hose on him.

Saturday night give a bran mash, cold, and add a tablespoonful of salt-petre.

Do not use a horse-hat, unless it is a canopy-top hat. The ordinary bell-shaped hat does more harm than good.

A sponge on top of the head, or even a cloth, is good if kept wet. If dry it is worse than nothing.

If the horse is overcome by heat, get him into the shade, remove harness and bridle, wash out his mouth, sponge him all over, shower his legs and give him four ounces of aromatic spirits of ammonia, or two ounces of sweet spirits of nitre, in a pint of water, or give him a pint of coffee water. Cool his head at once, using cold water, or, if necessary, chopped ice, wrapped in a cloth.

If the horse is off his feed, try him with two quarts of oats mixed with bran, and a little water, and add a little salt or sugar. Or give him oatmeal gruel or barley water to drink. Watch your horse. If he stops sweating suddenly, or if he breathes short and quick, or if his ears droop, or if he stands with his legs braced sideways, he is in danger of a heat or sun stroke and needs attention at once.

If it is so hot that the horse sweats in the stable at night, tie him outside. Unless he cools off during the night, he cannot well stand the next day's heat.

About \$400 damage was done to the Peerless Printing Co. by water Tuesday night when it flooded the first floor of the St. Joseph building. ## JUNE RECORD WAS EXCEEDED IN NIGHT

Weather\*Man Estimates That Three-quarters of Inch Fell During Tuesday.

Approximately three-quarters of an inch of rain fell Tuesday evening or more than the total amount that fell during June and up to July 7. On June 1 one-half of an inch fell, while after that only a quarter of an inch was recorded on the three days it rained.

According to Weather\*Observer Henry L. Swain the rain relieved the immediate needs of the farmer, although to protect his crops he should have more within the week. The temperature remained low again Wednesday, the mercury only reaching the 81 degree mark at the hottest time, and 62 above at its lowest mark.

The amount of damage due to the lack of rainfall is speculative but probably will run up into thousands of dollars for this county. Oats, wheat, rye, pastures, grass and other crops which are not cultivated, have suffered the most, while the draught came at an opportune time for the cultivated vegetation which suffered only a slight loss. Small fruits suffered to a great extent, while larger kinds were only damaged slightly.

**NILES.**  
Dr. W. I. Tyler is ill of rheumatic fever. Dr. Ullery is the attending physician.

Messrs. Harold Harder and Dan Baker gave a recital at the Presbyterian church Tuesday night. It was a big success.

Miss Florence Harder entertained the Thalian quartet of South Bend Wednesday evening at dinner in honor of Harold Harder, who leaves Thursday to take up chautauqua work.

Mr. and Mrs. Clyde Cutting are the parents of a daughter.

Mr. and Mrs. James Ingram left Wednesday for Los Angeles, Calif.

Mrs. Ingram was formerly Miss Alice Mabel French of Niles, a daughter of W. W. French. Her marriage to Mr. Ingram occurred Sunday, July 6, at the summer home of her father at Corey lake. Mr. Ingram is a resident of Los Angeles, where he has a position with the Cudahy Packing Co. Mr. French spent last winter in California and met Mr. Ingram there. The bride formerly attended the St. Mary's academy at Notre Dame.

## St. Mary's Grounds Not Open to Public

The authorities at St. Mary's have decided that hereafter the grounds of the institution will not be opened to the public.

Owing to the imposition of some persons who have been freely allowed the use of the grounds, this decision has become necessary. The speeding of automobiles, besides being a menace to safety, has also aided in damaging the drive-ways and shrubbery.

Persons who have business with the institution, or have children in attendance there, will find no difficulty in enjoying the same privileges as in the past and they shall receive courteous attention at all times.

## Visitor's Received

During the vacation months visitors who wish to be shown through the buildings at St. Mary's will be accommodated on Tuesday's and Thursday's from 10 a. m. to 5 p. m.

## Not a Dollar Need Be Paid Unless Cured!

**MEN**—You have only one life to live. Why not live it in full enjoyment of vitality? To gain a cure is more important than all other earthly considerations. It means freedom from anxiety and suffering. It means happy contentment for you, and for those dependent upon you. It means new vitality and restoration of perfect health. It means a stronger hold upon life and broader field of opportunity. Many of my patients express regrets that every person who is afflicted do not know and understand what I can do for them—many report their own experiences over and over, telling why they were in doubt before they came to me, and how sorry they were that they did not sooner learn of my treatment, which was absolutely reliable. I am the only specialist in South Bend who makes no charge unless the patient is entirely satisfied with the result accomplished, and who give a written guarantee of not a cent to be paid for service if a complete and permanent cure is not effected.

### 914—Blood Poison, Skin Disease—606

Are you afflicted, mortified, demoralized, discouraged, tortured and in danger from this awful life consuming poison in your blood? You are if you have these symptoms: Rash, Sores, Ulcers, Sore Mouth or Throat, Swollen Glands, Mucous Patches, Hair or Eyebrows falling out, Skin Blisters, Copper-Colored Spots, Rheumatic Pains, Aching in Bones or Joints, Eczema, Itching, Burning, Nervousness.

### 914—Cures After Hot Springs Fail—606

My treatment cures the above symptoms in 1 to 3 days, so you nor any one would ever know you ever had the trouble.

### Varicocele

It is a knotty, bunched, twisted, wormy-like or ruptured condition of the veins more often on left side, hanging over. The cause is usually horseback and bicycle riding and folly.

Symptoms—Aching of Pain in Groin or Back, felt while standing, Nervousness, Twitching, Jerking, Weakness, Loss of Vitality, Sweaty, Cold Feeling, Languid, Weak, Wornout all over, lack of power and Ambition, Headache, Restless at Night and Debility.

I cure Varicocele without a severe surgical operation or suffering or keeping you away from business.

**Private Diseases** Itching, Burning Discharge, Swelling, Painful Rheumatism. Strong injections and drug store remedies seldom cure the above symptoms, and they nearly always cause obstruction in the canal and serious kidney or bladder troubles. Don't fool with them because they are cheap.

**RUPTURE CURED**—The majority of cases cured in a few treatments without cutting, pain or risk. Thirty per cent of surgical operations are failures. My records show a perfect cure in over 95 per cent of the cases treated. We know you will think it impossible to cure rupture as we do. Let me prove it by what I have done. It will be the happiest time of your life when you return home cured.
